Start

Start Area Map (Fuji Hokuroku Park)

Start Schedule About the start on the day of the competition

Starting from the 3rd start, the start method will be changed in order to ease the congestion immediately after the start.

● The first start (Men's Selected Class) and the second start (Women's Selected Class) will start at 6:00 a.m. on the day of the race.

Participants will start lining up from 6:00 a.m. on the day of the event.

Participants who will start first should line up at the front, and those who will start second should line up at the back.

Participants from the 3rd start onward

Starting from this year, there will be a muster area (a place to wait in line).

There are two entrances to the muster area.

The time when participants can enter the muster area for each start is determined as follows.

Please note that you will not be allowed to enter the muster area before the following times.

Start 3 (marked with A on the number) After 6:00

Start 4 (marked B on numbers) 7:00 onwards

Start 5 (numbers marked C) 7:30 or later

Start 6 (numbers marked D) 8:00 or later

Start 7 (numbers marked E)

After 8:30, a staff member will be stationed at the entrance of the muster area to check if the competitors are allowed to enter. (This will be determined by the letters of the alphabet printed on the numbers.) Once in the muster area, competitors will start from one of the start standby lines 1 to 4.

The start will be divided into 8 waves within each start, and the waves will start at 3-minute intervals. The 90-minute pacer will be placed in the last 8 waves of each start.

Information

Start

First to second start Line-up will begin at 6:00am. Please complete lining up 15 minutes prior to the

start time. The start will be made at the same time as the start signal.

*After the start, runners will be paraded to the starting point of the record measurement.

Overtaking the lead car is prohibited.

3rd to 7th start

Please start within your own starting time (30 minutes).

On-site baggage storage On the day of the event, luggage will be kept at the on-site luggage storage area at

the start venue (large parking lot) from 5:30am.Please check the map on page 11. **Please check the map on page 11. After the finish, please pick up your baggage at the same place where you left it.

OCheck Point closing time (e.g. of a gate)

Gate 1: 9.4 km, closes at 11:00

2nd gate 17.2 km point Closing time 11:30 Finish 24 km point Closing time 12:00

If you fail to pass through the gate by the closing time, the race will be cancelled. In such a case, please follow the guidance of the staff and finish running as soon as possible.

After the barrier gate, the riders will board the accommodation vehicle, go up to the Mt. Fuji's fifth station, receive their luggage, and then disembark on the bus.

If you are still on the course (have not reached the barrier gate) after the barrier gate closing time, you must board a vehicle to accommodate you.

○フィニッシュ後(五合目での荷物受け取り)

Please follow the guidance of the staff to pick up your luggage. The pick-up locations vary depending on the number card. Units 1~8200: Parking Lot 2

Units 8201~10775: Parking Lot 1

After receiving your luggage, please promptly change your clothes, etc., and move to the waiting area for dismounting. We ask for your cooperation in making a speedy dismount. Measurement tags will be collected at the venue in exchange for a finisher's ring after dismounting.

OAbout Downhill

After the finish, please follow the guidance of the staff and prepare to dismount as soon as possible. As soon as you are ready, please dismount as a group in the order in which you are lined up.

To prevent danger, it is prohibited to Downhill the mountain individually.

The starting point of the Downhill will be 2 km Downhill from the finish line.

If the last group of descenders cannot start the descent at 12:20 p.m., or if they do not have enough energy for the descent, they will be bussed back down the mountain.

The leader of the Downhill group will be assigned to the first and the last group. It is not allowed to overtake the leader of the first group or lag behind the leader of the last group.

When descending, be sure to ride on the left side of the road (far left). Please be especially careful on curves, as riders will be coming up from the right side of the road.

If any trouble occurs during the descent, please signal the descent leader or the Downhill control team. The right curve at the end of the Subaru Line (Tainai Intersection) and the right curve when entering the main venue are very dangerous due to the high speed. Please slow down sufficiently before making the turn.

Downhill control party Leader

These are the lead and tail roles that will be placed at the beginning and end of the Downhill team. They will wear bibs and helmet caps. They must follow the instructions of the descent leader. The Downhill leader will unite the Downhill control team and ride to ensure a safe descent.

Downhill control party

A "Downhill Control Team" of volunteers from the participants will follow the leader down the mountain. They are identified by the fact that they wear only helmet caps. The control team will hold the leader together with the leader. The control team will also run close to the center line of the route (right side in the direction of travel) to prevent participants from crossing the center line.

% Please be sure to check the Downhill formation on p. 13. About Retirees / For those going down the mountain by bus

If you wish to retire from the course due to any problems during the race, please notify the staff on the course. If you retire, you will be transferred to an accommodation vehicle and driven up to the Mt. Fuji's fifth station, and then back down the mountain in the accommodation vehicle.

(*) The parking lot in Fuji-Hokuroku Park is the place to get off the bus and return the bicycles.

Downhill Formation

下山先頭リーダ-

Participants should follow the Downhill method and ride safely with each other!

Each group of 400-500 people will descend the mountain in a line.

It is very dangerous to stop and put on clothes on the way down. Please take warm clothing before you arrive at the starting point of the Downhill descent.

STAFF bib-wearing "leaders at the front and tail of the Downhill" and "Downhill control team" wearing safety caps will be stationed around the participants to control their pace and running line to ensure safe Downhill descent.

Let's talk to them.

「We're leaving!」

「Slow down.」

「Stop.」

The leader of the descent will give a reminder each time, so please cooperate in calling out to those participants who will be riding nearby as well.

Fuji Hill is a mountain until you safely descend the mountain! We ask for your understanding and cooperation!

The 4 Principles of Downhill Safety

Do not cross the center line.

There are participants in the opposite lane who are going up

2 Sudden Deceleration/Sudden Steering NG

When descending a mountain in a group, please do not suddenly move to the center line or stop when you see someone you know going up the mountain.

3 When stopping, say "stop" in a loud voice.

Tell them in a loud voice to distinguish from slowing down when you need to stop, such as "my hand or neck hurts," or "I need to go to the bathroom."

If you are not comfortable descending in a group, go to the left side of the course.

If you do not like to ride in groups or Downhill, please stop on the "left" side of the road when you line up for the descent, as it is easier to stop on the shoulder.

Information

Orecord measure

- The race will be held from the main venue, Fuji Hokuroku Park, to the Tainai Intersection (approx. 1.3 km point), and the net time will be measured from the Tainai Intersection to the Fuji Subaru Line Fifth Station (the finish line). The organizer-selected classes will be measured by the gross time from the same point.
- Please attach the timing tag to your ankle.
- Please be sure to return the timing tag at the venue in exchange for the finisher's ring. Failure to return the tag will result in a 4,000 yen charge.
 - The preliminary results will be posted on the day of the race, and the results will be posted on the website later.
- Please note that we will not be able to reissue numbers to those who have forgotten theirs. Forgotten numbers will not be allowed to participate in the event.

©Race Riding Precautions

- ①Ride on the left side of the road (leftmost lane), and do not cross the center line to the right.

 *Please be careful not to lean too close to the center line, especially when riding around right-hand curves.
- 2 Overtaking is prohibited by saying, "Go right!
- ③When descending, it is prohibited to pass the leader of the Downhill group or to run slower than the leader of the Downhill group.

©Competition Rules

- ①Gloves and helmets must be worn, and warm clothing must be worn when descending.
- ②The wearing of DH handlebars, spinaches, clip-on bars, etc. is prohibited.
- ③Any rider or modified vehicle deemed dangerous by the organizers will be disqualified. In some cases, a penalty may be imposed, such as not being allowed to enter the next year's event.

 Please refer to the competition website (https://www.fujihc.jp/outline/) for vehicle type rules.
- (4) A few winners from each category may be selected to have their cars inspected after the finish. Car inspections will be conducted at the event site.

Information

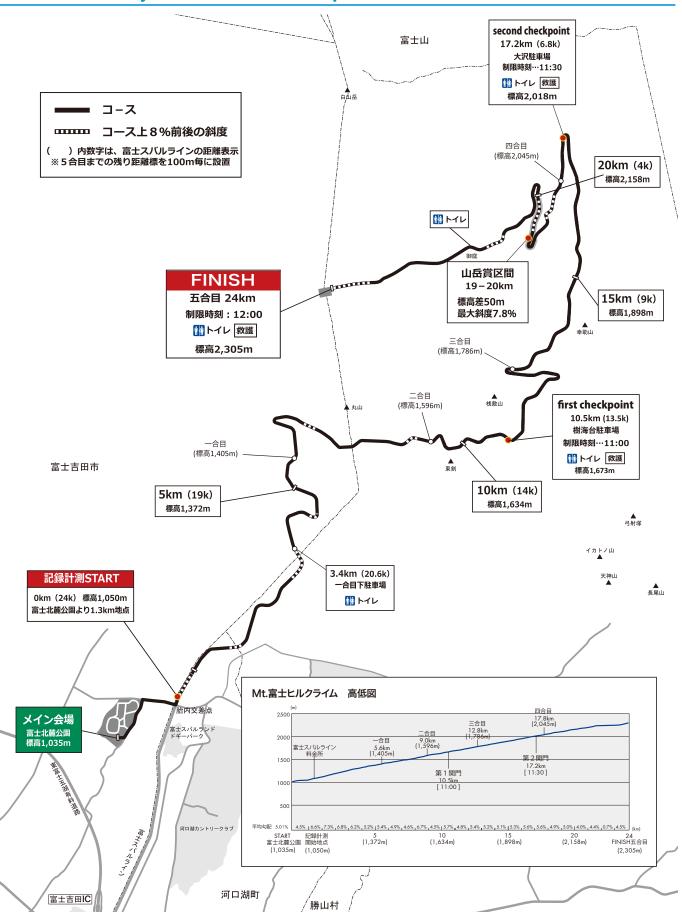

precautions

- ① The event may be cancelled or suspended due to earthquake, wind, accident, stormy weather (snowfall, rainfall, strong winds, lightning, etc.), epidemic or other reasons. In such cases, the organizer will determine whether or not the entry fee will be refunded and the amount, etc., on a case-by-case basis.
- 2 During the competition, please follow the instructions of the competition officials and participate in the competition safely.
- 3 In case of injury, etc. during the event, only emergency treatment will be provided. Please be sure to report to the first-aid tent.
- ④ Injuries, etc. during the event will be compensated only within the scope of the organizer's accident insurance. If you wish to receive other compensation, please purchase insurance at your own risk in advance. In addition, insurance does not cover anyone other than those who have entered the event. This event has disaster compensation rules for participants, and they are covered by the relevant insurance. The insurance does not cover damage, loss, theft, etc. of bicycles (frames and parts) not only during the race but also on the day of the event. If you are concerned about the coverage, please purchase a new insurance policy on your own.
- ⑤ Please train sufficiently and take care of your health before participating in the competition. If you are not in good physical condition, please do not force yourself to participate and be brave enough to abandon the race.
- ⑥ The area surrounding the race site is Fuji-Hakone-Izu National Park, so camping around the race site or on the course is strictly prohibited.
- The organizers reserve the right to publish videos, photographs, and articles in newspapers, magazines, and on the Internet during the competition.
- ® Please take your garbage home with you. If you have no choice but to dispose of garbage, please separate it into burnable garbage, bottles, cans, and PET bottles.
- Please obey the road traffic laws and drive properly, not only during the tournament period.
- (ii) Security guards will be patrolling the venue to prevent theft, but please take care of your bicycle by locking it when you leave it or asking a fellow rider to lock it.
- ① Drinking alcohol is strictly prohibited during the event. Flooding and other incidents
- ⁽²⁾ Riding may be interrupted due to sudden deterioration of weather conditions or natural disasters. In such cases, please follow the instructions of the staff.
